

I was a 13 year old Army Paratrooper and a 16 year old Sailor

SECTION 1

This documents my Civilian and Military education history: My education is unique because of changing schools, due to family separation, moving to other cities, and the death of my Mother, when I was eleven years old; this caused me to be behind in school grades. I was thirteen years old and only completed the fourth grade, because while I was in the fifth grade I was promoted to the eight grades and was informed that if I completed the eighth grade, I would be promoted to the ninth grade the following year. I never completed the fifth or the eighth grade. I joined the U. S. Army during the school year. After serving three years in the U.S. Army, I joined the U. S. Navy and completed thirty years military service. After retiring from the Military, I Retired from General Electric Company here in Wilmington, North Carolina, with over twenty five years' Service in the Nuclear Field.

SECTION 2
U. S. Army History

508th Parachute Inf. Regt.

325ft Glider Inf. Regt.

504th Airborne Inf. Regt

For my sake, the love of my Country and for the admiration of my two brothers that were serving our Country in the Navy and Army, in WWII plus the fact that my Mother had passed away, I wanted to join the Military at an earlier age, but I had to wait until I became 13, and big enough in order to enlist in the Army in 1946.

In Waynesville, Missouri in March 1946, I went to the post office to pick up the mail, and got into a conversation with an Army recruiting Sergeant who was writing down all the information that we were talking about. I soon realized that he was recruiting me into the Army. I went along with him thinking that if I can lie to him about my age of 17 and get by with it, so be it.

We went to the County Courthouse, before a Judge, that was up in age and that knew my family. He mistook me for my Brother John and verified that I was 17.

The Sergeant gave me induction papers for me to get my Fathers signature on. After giving the Sergeant the signed papers, I was transported by Army carryall to Springfield, Missouri for testing. After passing the written test, I was transported to Jefferson Barracks, St. Louis Missouri by train

After passing the physical, I was sworn into the Army, and transported to Fort Leavenworth, Kansas by train. To be issued Military clothing, Then I was transported by train to Aberdeen Proving Grounds, Maryland for Army basic training.

Completed Army Basic Training
18 May 1946

13 year old Private Ogle, Completed Army Basic Training and was transferred to Germany on The SS Annotch Victory ship In June1946 and arrived in Le Havre, France. Pvt. Ogle was transported to Marburg, Germany by troop train. While awaiting orders for assignment to Paris, France, Ogle Joined the 508th Parachute School and was transported by truck to Frankfurt, Germany for basic Airborne Training. After weeks of airborne training and packing five parachutes that Ogle had to jump, Ogle was awarded his parachute wings, and was assigned to the 508th parachute Infantry Regiment. The 508th was an honor guard Regiment and duties composed of guarding vital military installations. In November 1946, the 508th was disbanded and ordered back to the 82nd Airborne Division, stationed at Fort Bragg, North Carolina. The Regiment left Bremerhaven, Germany by ship, the USNS General Sturgis, arriving in New York harbor on November 14, 1946. The regiment was transported by ferry to Camp Kilmer, New Jersey, where at midnight on November 14, 1946, Pvt. Ogle, celebrated his

fourteenth Birthday. Later on, the 508th was transported by truck convoy to Fort Bragg, N.C. Pvt. Ogle was assigned to the 325th Glider Infantry Regiment and later assigned to the 504th parachute Infantry Regiment.

Pvt. Ogle, Frankfurt, Germany 1946

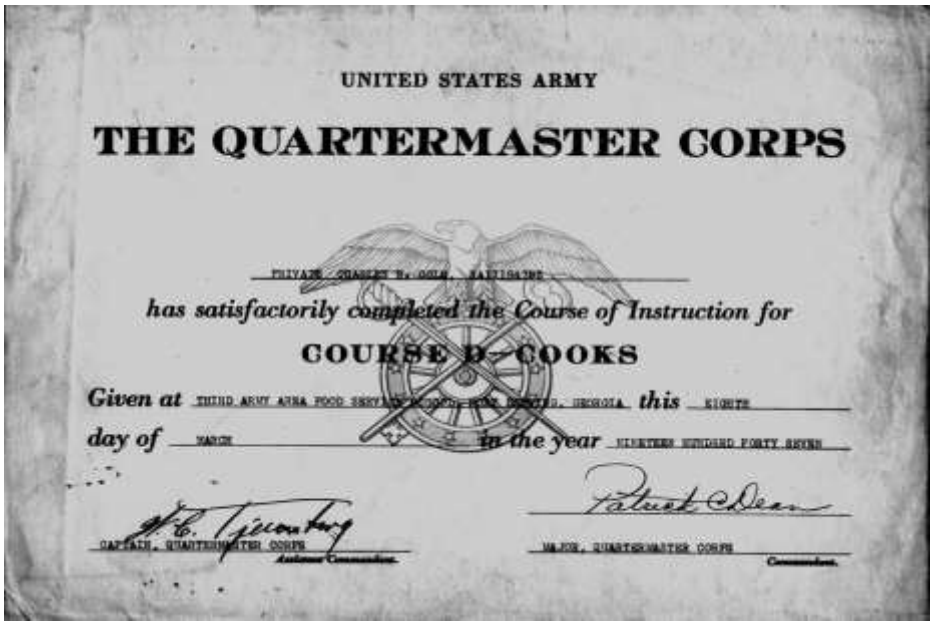

After returning to Fort Bragg, North Carolina I was assigned to the 325th Glider Inf. Regiment, awaiting orders for further transfer to an airborne Regiment. While awaiting assignment I was told by my fellow paratroopers that I had the garments an infectious disease. While in Europe being 13 years old, scabies was rampant and being 14 years old now with a fourth grade education and not knowing what garments was and afraid of infecting others, I went to sick call and informed the Doctor that I had the garments, the Doctor asked me again and I said that I

had the garments, the Doctor asked me to show him and I told him I didn't know, only that my buddies said that I had an infectious disease. The Doctor said that I was covered with garments and the barracks would be quarantined. This did not go over well with the ones that told me that I had the garments. They asked where I came from and when I told them Missouri, and that I was a farmer, they said "that's figures" . This joke on me, backfired on my fellow paratroopers, I wonder what they would say if they only knew I was 14 years old at the time. The quarantine was lifted later on that day.

While attending Cook and Baker School, The mess Sergeant told me and another student to go across the camp to another mess hall and inform the mess sergeant to give him back the weaner stretcher that he loaned him. That mess sergeant told us that he loaned it to another mess sergeant and for us to go to another mess hall and inform that mess sergeant to give us the weaner stretcher. This mess Sergeant said that if we idiots didn't have anything else better to do, he would find us something, and to get out of his sight, or he would have us put in the stockade. My excuse for being stupid was that I was 14 years old; I don't know what the other soldier's was

COMMANDING

Due to the Army rating structure change, 15 year old Sgt. Ogle is now Cpl. Ogle and completes AIR TRANSPORTABILITY SCHOOL

Sgt/Cpl. Ogle with new Cpl. Chevrons
Due to Army rating structure change

Army changed rating structure

13. The applicant argues that in 1947 he was promoted to the rank of SGT/grade 4 and that he wore an insignia of three chevrons. He makes a distinction between "rate" and "rank" and believes his WD AGO Form 53 should reflect SGT in item 3 (Grade).

14. The United States Army has gone through several restructurings of enlisted grades. War Department Circular 313, dated 5 August 1920, established the basic ranks and grades. War Department Circular 5, dated 9 January 1942, modified the basic structure as follows:

a. grade 1 – master sergeant (insignia of three chevrons and three rockers);

b. grade 2 – technical sergeant (insignia of three chevrons and two rockers); or

grade 2 – first sergeant (insignia of three chevrons and two rockers with a French lozenge, or diamond-shaped figure, between the chevrons and rockers);

c. grade 3 – staff sergeant (insignia of three chevrons and one rocker); or

grade 3 – technician third grade (insignia of three chevrons and one rocker with the letter "T" between the chevrons and rocker);

d. grade 4 – sergeant (insignia of three chevrons); or

grade 4 – technician fourth grade (insignia of three chevrons with the letter "T" below the chevrons);

e. grade 5 – corporal (insignia of two chevrons); or

grade 5 – technician fifth grade (insignia of two chevrons with the letter "T" below the chevrons);

f. grade 6 – private first class (insignia of one chevron); and

g. grade 7 – private (no insignia of rank).

15. On 7 July 1948, Department of the Army Circular 202 discontinued the sergeant fourth grade, deleted the technician ranks, and the seventh grade was

re-labeled "recruit" effective 1 August 1948. The post-World War II basic ranks and grades were:

a. grade 1 – master sergeant (insignia of three chevrons and three rockers);

b. grade 2 – sergeant first class (insignia of three chevrons and two rockers);

c. grade 3 – sergeant (insignia of three chevrons and one rocker);

d. grade 4 – corporal (insignia of two chevrons);

e. grade 5 – private first class (insignia of one chevron); and

f. grade 6 – private (insignia of one chevron); and

g. grade 7 – recruit (no insignia).

DISCUSSION AND CONCLUSIONS:

1. The WD AGO Form 53 is an obsolete separation document that is no longer issued by the military. It has been replaced by the DD Form 214. The only vehicle available to correct separation documents is the DD Form 215. In the applicant's case, the DD Form 215 was modified to indicate it was correcting a WD AGO Form 53 in items 10 (Date of Birth) and 33 (Decorations and Citations); the two items affected by the applicant's request.

2. The evidence of record shows the applicant was already awarded the World War II Victory Medal; therefore, his current request to have that decoration added to his WD AGO Form 53 is not relevant to these proceedings. In addition, his DD Form 215, dated 3 July 2001, already corrected his date of birth and added the Army Good Conduct Medal; those requests are also not relevant to these proceedings.

3. The applicant contends at the time of his separation in 1949 his highest rank held was SGT/grade 4, which he attained on 17 November 1947. The Board acknowledges he was a grade 4/ SGT in November 1947. However, Department of the Army Circular 202, dated 7 July 1948, revised the enlisted grade structure and, while he remained a grade 4, his rank changed from that of SGT (three chevrons) to CPL (two chevrons). Therefore, his 1949 WD AGO Form 53 correctly shows he was a CPL/grade 4.

Hearken Ye

the said vessel officers and crew have inspected and passed

C. R. OGLE, QM3, USN

and has been found sane and worthy of the Mysteries of the Far East

Golden Dragon Ruler of the 180th Meridian

14ND FORM S-54

Ogle served on the Stribling as a QM3 in 1953. On 23 August 1953, Stribling set sail from Norfolk for the Panama Canal and duty with the Pacific Fleet. **After stopping at San Diego, California for Liberty, she headed for San Francisco, California for stores and stopping at Pearl Harbor for fuel.** She reached Yokosuka, Japan on 3 October and, after a brief upkeep period, commenced Korean War operations. The destroyer operated intermittently with the carriers of Task Force (TF) 77 in the Sea of Japan and with TF 95, the **United Nations Escort and Blockading Force**, along the west coast of Korea and in the Yellow Sea.

The Stribling anchored in Sasebo harbor, lifted anchor at night and made an over night trip to Nagasaki, Japan. Upon mooring alongside the pier the next morning the ship was opened to visitors, and the crew was granted liberty.

The Stribling caught a blockade runner, while steaming with the task force 95, took crew aboard and with her five inch guns blew the craft out of the water, and was later detached from the task force for Sasebo, Japan, to turn the blockade runners over to authorities. While along side the USS Piedmont, CTF-95 flagship, which was Anchored at buoy 1, in Sasebo, Japan harbor, QM3 Ogle and another QM3 on the flag allowance agreed and obtained authorization to swap places, which they did. He took my bunk and locker aboard the Stribling and I took his bunk and locker aboard the piedmont I was attached to the flag and not to the ship. When the Piedmont left for home, I stayed with the flag, on his next flag ship The USS Jason.

. During the Korean campaign *Piedmont* acted as flagship for Commander United Nations Blockading and Escort Force .

CTF-95 SHIFTED HIS FLAG TO THE USS JASON (ARH-1)-(AR-8) ANCHORED AT BUOY 1, SASEBO, JAPAN

USS JASON ARH-1/ (AR-8
FLAGSHIP OF COMMANDER BLOCKADING ESCORTING FORCES PACIFIC

As the Communist menace grew bolder, and their regime in North Korea staged an overt act of aggression on South Korea, the United States responded to the challenge. American forces were dispatched to the area, and naval power played an important role in the conflict. With an increased number of ships in the Far East, *Jason* departed Oakland, California, on 22 July 1950 for Sasebo and immediately began service duties upon her arrival in August. Throughout the war she remained at Sasebo for extended periods performing the repair tasks at hand, with only brief overhaul periods in the United States. Her next Far Eastern tour began January 1956, and she operated, in Japan, Okinawa, and Formosa before returning to San Diego, in late October. While on still another deployment to Sasebo she was redesignated AR-8 on 9 September 1957

CTF-95 Shifted his flag to Flagship Delta

USS Delta AR-9

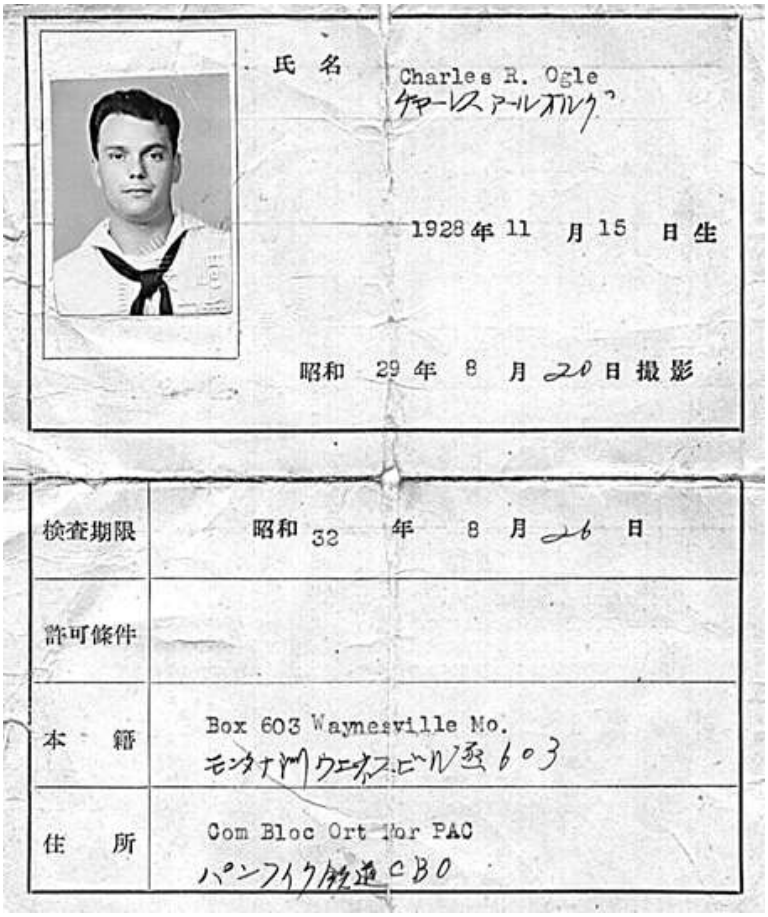

Decommissioned 1 November 1950, *Delta* arrived at San Diego 8 March 1951 to provide repair services to ships of the Pacific Fleet there and at Long Beach, California as well as on periodic deployments to the Far East. Her first such, during the Korean War, was from
25 June 1952 until 14 February 1953Recommissioned 1 November 1950, *Delta* arrived at San Diego 8 March 1951 to provide repair services to ships of the Pacific Fleet there and at Long Beach, California as well as on periodic deployments to the Far East. Her first such, during the Korean War, was from 25 June 1952 until 14 February 1953. On her second, in 1953 and 1954, she joined in Operation "Passage to Freedom", the evacuation of Vietnamese to South Vietnam upon the partition of Indochina. During her last Far Eastern service, in 1955, she served as flagship for the Blockading and Escort Force off Korea. She returned from this cruise to Tacoma, Washington, where she was decommissioned and placed in reserve 1 December 1955.*Delta* received three battle stars for World War II service, and one for Korean War service.

PROMOTED TO QUARTERMASTER
SECOND CLASS (QM2) ON JANUARY 1, 1955 By CTF-95 Chief of Staff

To all who shall see these presents, greeting:

Know Ye, that reposing special trust and confidence in the fidelity and abilities of

CHARLES RICHARD OGLE, I do appoint HIM

QUARTERMASTER SECOND CLASS in the

United States Navy

to rank as such from the SIXTEENTH day of NOVEMBER nineteen hundred and FIFTY-FOUR.

This appointee will therefore carefully and diligently discharge the duties of the grade to which appointed by doing and performing all manner of things thereunto pertaining. And I do strictly charge and require all personnel of lesser grade to render obedience to appropriate orders. And this appointee is to observe and follow such orders and directions as may be given from time to time by Superiors acting according to the rules and articles governing the discipline of the

Armed Forces of the United States of America.

Given under my hand at COMBLOCORTFORPAC, this FIRST day of JANUARY, in the year of our Lord nineteen hundred and FIFTY-FIVE.

W. W. WILBOURNE
CAPTAIN, U. S. NAVY

COMTRANSDIV 32

Commander Transport Division Thirty two

DEPLOYED TO THE FAR EAST

For the remainder of the 1950s and into the 1960s, *Whetstone* deployed regularly to the Far East and WestPac areas, there participating in numerous amphibious exercises, maintaining herself in a high state of readiness. During those years, non-military events highlighted her tours both at home and afar

The USS Whetstone departed San Franscisco,California for the Far East in September 1955. She operated in landing operations in Okinawa, Japan, and refueling at Pear Harbor and Yokosuka,Japan. Ogle, QM2, received his shore duty orders on 27 February 1956 when the ship was in Yokosuka,Japan, for the USNAAS, Whiting Field, Milton, Florida.

27 February 1956, Ogle,QM2,was transferred from the USS Whetstone LSD-27, at Yokosuka, Japan, to shore duty at USNAAS,Whiting Field,Milton, Florida. Intermediate station is RESTA NAVY NO 3923 for further transfer REPORTED ON BOARD RESTA NAVY 3923 ON FEB 29,1956 AND DEPARTED MARCH 2,1956 FOR USS PICKAWAY APA-222 FOR TRANSPORTATION TO U.S. NAVAL RECEIVING STATION,NAVAL STATION, SAN DIEGO, 36 CALIFORNIA.

USS PICKAWAY APA 222

Korean War

On the summer of 1950, a month after the North Korean forces marched against South Korea, *Pickaway* began shuttling U.S. Army troops from Japan to Pusan to stem the tide of battle. On 15 September 1950, she saw her first real amphibious invasion at Inchon, when the U.N. forces flanked the North Koreans. During the Korean conflict, *Pickaway* was deployed to the Korean area four times. She landed troops on most of the major Korean beachheads.

In March 1955, *Pickaway* left Korea for the last time, carrying troops of the same brigade she transported to Korea on her first trip.

REPORTED 23 MAR 1956, DEPARTED 26 MARCH 1956

U.S NAVAL RECEIVING STATION, NAVAL STATION, SAN DIEGO 36, CALIFORNIA

QUARTERMASTER

Charles Richard Ogle, Signalman first class. 3402662, USN, Receiving commendation on stern (fantail) from Commanding officer, USS Wallace L. Lind, DD-703,with ship's Company assembled at Norfolk, VA.

The Commanding Officer, U.S.S. WALLACE L. LIND (DD 703) takes pleasure in commending

CHARLES RICHARD OGLE, Signalman First Class

UNITED STATES NAVY

for services in connection with his performance of duty aboard the WALLACE L. LIND (DD 703) as set forth below:

"For meritorious achievement in the performance of his duties while serving on board the U.S.S. WALLACE L. LIND (DD 703) from 13 September 1958 to 15 March 1960. As petty officer in charge of the signal gang, OGLE has shown outstanding qualities as a leader and the "Know How" to get the job done. Since OGLE has been on board, the bridge has always been one of the most immaculate spaces on the entire ship. Never neglecting his men, OGLE has taken each man assigned to his gang through every phase of signaling. By constant training he has molded each man into a well qualified signalman. OGLE has proved himself to be a good improviser. He has repeatedly done jobs which would have required much time and effort of other divisions. OGLE is a great asset to the LIND and to him, we extend a sincere "Well Done." His conduct, leadership, skillful application of professional skill, and devotion to duty are in keeping with the highest traditions of the United States Naval Service."

A. DENNETT
Commander, U.S. Navy
Commanding Officer, U.S.S. WALLACE L. LIND (DD 703)

Upon her return to Norfolk, Wallace L. Lind conducted local operations until 24 October 1958 when she was deployed to the Mediterranean with the 6th Fleet. On 5 November, she reached Barcelona, Spain, then headed for the Middle East,, making stops in the areas of the Suez Canal, Red Sea, Gulf of Aden, and the Persian Gulf. On 14 January 1959, the destroyer arrived at Livorno, Italy, and spent the remainder of the cruise operating between Italy and Spain. She made a brief stop at Cannes, France, before starting the trip homeward. Wallace L. Lind arrived at Norfolk, Va., on 8 April 1959 and participated in services and type training until July when she entered the Norfolk Naval Shipyard for an interim refitting and docking period. For the remainder of the year, she operated from her home port, making trips to May port, Fla., and Narragansett Bay, R.I., acting under the control of COMASWFORLANT for duty with the antisubmarine warfare hunter/killer forces.

Wallace L. Lind operated with these forces through 29 June 1960 when she took on board 27 NROTC midshipmen for their annual training cruise. The destroyer demonstrated her antisubmarine warfare proficiency during this six-week outing which included stops at Halifax, Nova Scotia, and New York City.

TRANSFERRED TO NAVSCOLCOMD, U. S. NAVAL BASE NORFOLK VIRGINIA ON APRIL 25,1960, FOR *LEADERSHIP SCHOOL. REPORTED BACK TO USS WALLACE L. LIND ON MAY 20,1960*

J. A. MERRITT, III
Officer in Charge
U.S.S. TWEEDY (DE-532)

On 13 June 1960, Ogle, SM1, USN, received transfer orders to the USS Tweedy (DE-532) home ported at Pensacola, Florida.

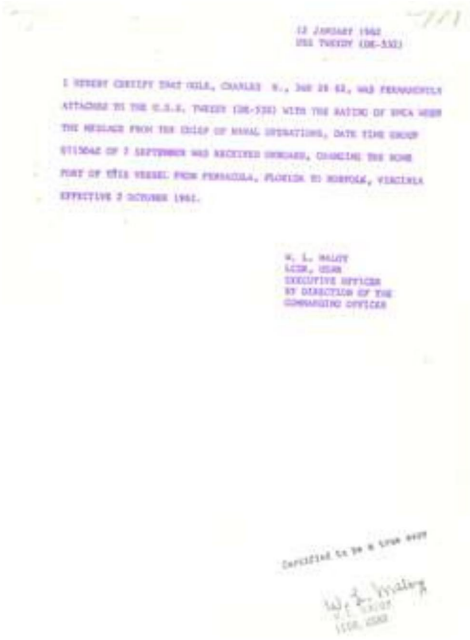

OGLE, SM1, USN, REPORTED ABOARD ON 6 JULY 1960

Conversion to Naval Reserve training

In June 1958, the ship became a Naval Reserve training ship. Following refresher training in Cuban waters, she assumed duties as flagship for Reserve Escort Squadron 4, training reservists from the 6th Naval District. The ship was placed out of commission, in reserve, on 20 June 1959, but she conducted weekend training cruises out of Pensacola, Florida, for over two years.

Reactivated during the Berlin crisis

In response to the Berlin Crisis of August 1961, *Tweedy* was decommissioned on 2 October of that year. and commenced antisubmarine barrier duties in the Caribbean early in 1962. Throughout the year, she engaged in fleet and type exercises, made goodwill visits, and served as flagship for Escort Squadron 12. On 12 June, as *Tweedy* steamed from Pensacola to Norfolk, Virginia, she came upon nine Cuban nationals in distress after two days at sea in an open, 14-foot boat. *Tweedy* aided the refugees and, later in the day, transferred them to U.S. Coast Guard representatives for assistance on their way to Miami.

IN REPLY REFER TO:

8 February 1966

TO WHOM IT MAY CONCERN:

Chief Petty Officer Charles R. OGLE, U.S. Navy, will shortly complete twenty years service and will retire from the Navy. The below information is provided in order to summarize the experience he has acquired and the capabilities he has demonstrated during his Naval service.

Chief OGLE has been assigned to this command for three years, during which he has served as the station's leading chief petty officer and chief recruiter. As leading chief petty officer, he has been responsible for the planning and supervision of all work performed by the station forces, for the control and administration of maintenance funds, and for the supervision of instruction and training provided for the 250 Naval Reservists who utilize this training center. In carrying out these duties he has demonstrated marked ability to budget and to plan constructively for the work of others, and to supervise and coordinate that work so that it is performed with maximum effectiveness.

As Chief Recruiter, Chief OGLE organized the recruiting office to provide for the systematic contacting of approximately 5000 high school students and approximately 450 former naval reservists who reside within a radius of about 75 miles from Wilmington. He developed and implemented systems for direct mail, telephone and personal contact with these individuals, and for support of the recruiting effort through the news media. He personally screened, tested and evaluated all applicants for enlistment, and supervised the administrative processing attendant to enlistments. During the 18 month period in which Chief OGLE has been assigned these duties, he and the two recruiters he supervises have achieved an increase of approximately 35% in the membership of the Naval Reserve units which are supported by this training center.

Prior to his assignment to this command, Chief OGLE performed a wide variety of duties involving navigation and visual communications in various ships of the fleet. In addition to the skill necessary to make the visual observations, these duties require rapid and accurate mathematical computations and extensive use of mathmatical tables. Chief OGLE's service record reflects throughout a high degree of proficiency and reliability in the performance of these duties.

Chief OGLE possesses exceptional initiative and a contagious enthusiasm for any and every task he is assigned. These factors, coupled with his determination, his reliability, and his long hours of hard work have enabled him to establish an outstanding record of Naval service.

Chief OGLE's character and integrity are beyond reproach. He resides in Wilmington with his wife and two young children.

I will be pleased to furnish any further information which may be desired concerning Chief OGLE. In the light of his outstanding record in the Navy, it is a pleasure to give him my highest recommendation.

Louis R. Dudley
Commander, U.S. Naval Reserve, Commanding Officer

AMERICAN RED CROSS
WILMINGTON CHAPTER
WILMINGTON, N. C.

21 November 1963

Commander K. M. Mullins
Commanding Officer
U. S. Naval Training Center
Sunset Park
Wilmington, North Carolina

Re: OGLE, Charles R., Chief
U. S. Naval Reserve Training Center
Wilmington, North Carolina

Dear Commander Mullins:

The Wilmington Chapter, American Red Cross wishes to call to your attention the splendid cooperation we have received from Chief Ogle. We have worked with him very closely on behalf of the men of the Naval Reserve Training Center, also, members of the Plover. At all times, he has shown a deep concern for the Welfare of his men and because of his understanding and ability to deal with people, has made our services more beneficial.

We feel that Chief Ogle is a credit to the Navy. He certainly typifies the splendid tradition of this service. We are deeply appreciative.

Sincerely yours,

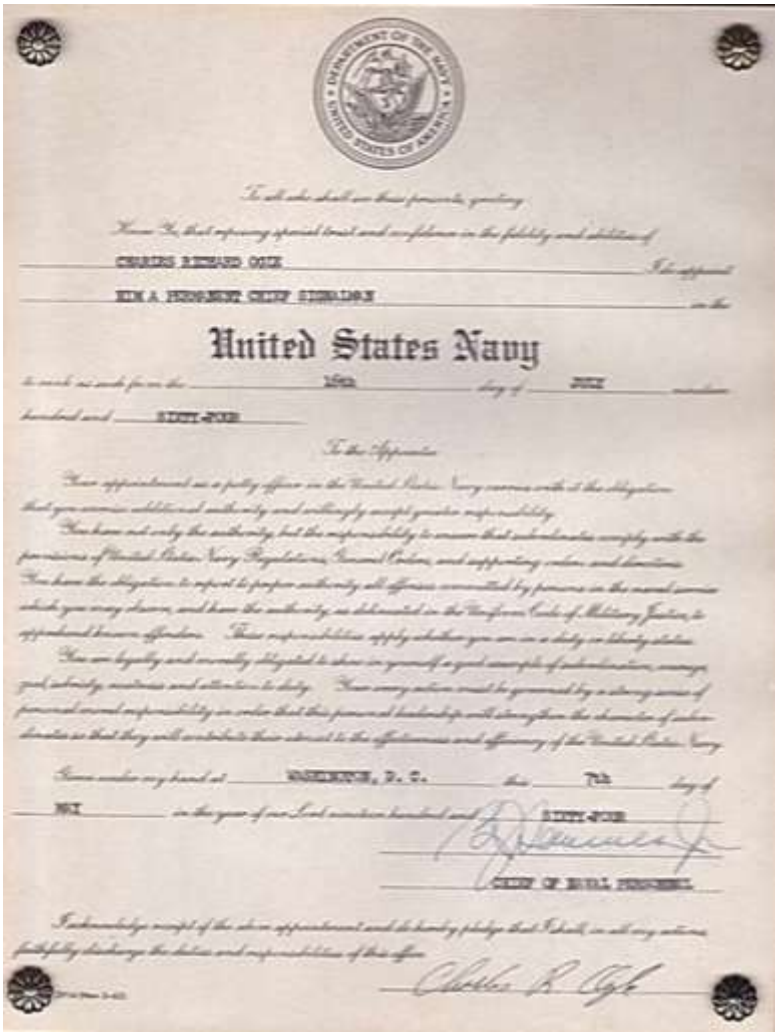

Olga A. Sears

(Mrs.) Olga A. Sears
Executive Director

oas/bbm

Chief Ogle shipped over in the Navy for six years. During prior enlistment the following school or course was completed; 1/7/63-1/18/63 INSTRUCTOR FOR NAVAL RESERVE, 6ND INSTR SCOL CHASN SOUTH, CAROLINA. 4/25/60 - 05/20/60 LEADERSHIP, USN LEADERSHIP SCOL, NAVSTA NORVA. OTHER SERVICE TRAINING COURSES SUCCESSFULLY COMPLETED: NAVPERS 91292.NAVY REGULATIONS, NAVAL ORIENTATION AND UCMJ.

RECEIVED GOOD CONDUCT MEDAL (FOURTH AWARD).

Dear Mr. Ogle:

It is a pleasure to inform you that you have made the Dean's List for the Spring Quarter, 1971. I know that you are proud of your progress at this school.

I would also like to congratulate you for your performance at this school and for receiving an Associate in Applied Science Degree.

Best of luck and do not hesitate to contact us if we can be of any service to you in the future.

Sincerely,

E. T. Satterfield, Jr.

TO WHOM IT MAY CONCERN:

This is to certify that C.R. Ogle has been examined and found qualified to perform the function of a Level A3 in accordance with NRC Regulatory Guide 1.58 and N45.2.6 as described and accepted by the NRC in General Electric's Quality Assurance program, NEDO-11209.

The qualifications and physical characteristics comply with those established in General Electric's internal procedures, P/P 70-32 and QASAR 320-80.1, for Discipline #056 - Fuel Site Inspection.

This certification is based on the following:

I. Education

High School Diploma
Associate Degree in Applied Science
Instructor Vocational Training (097)
GE Manufacturing Studies
GE Quality Assurance Lead Auditor Training Programs
Stat-A-Matrix Certification in auditing Nuclear Q.A. Programs
GE Nuclear Services Operations Certifications Received in:

- Field Disassembly/Reassembly of Irradiated Fuel Bundles and Quality Control Inspection.
- Field QC activities on Irradiated Fuel Assemblies and (1) Fuel Bundle UTP removal/replacement and (2) individual Rod handling and removal and reinstallation of Channels.

II. Experience

GE Draftsman	2-1/2 Years
GE Design Draftsman	2 Years
GE Supervisor- NCM & Receiving Inspection	2 Years
Certified GE Quality Assurance Lead Auditor	15 Years
Certified GE Site Inspection Specialist (Performed this function at various sites, both foreign and domestic.)	12 Years
Certified GE Level A-1 for Site Bundle Reconstitution Insp.	6 Years

III. PHYSICAL CHARACTERISTICS

Meets visual requirements as listed on the Visual Test Report P/P 70-32 (3) and the following special requirements:

- Corrected vision shall meet the minimum acceptance levels for two eyes

This certification shall be effective for three years from April 8, 1991, after which time recertification must be performed. Physical characteristics must be evaluated and documented at one year intervals.

VISION ACUITY

Certificate of Qualification is only valid with a current Vision Acuity.

General Electric Nuclear Energy, 12200 Herbert Wayne Ct. Suite 100, Huntersville, NC 28078 Telephone: (704) 948-2339

This is to certify that Charles R. Ogle, Certification Number 0562, is qualified to perform the duties listed above as outlined in the GE Nuclear Energy Engineering Operating Procedure for Qualification and Certification of Personnel, EOP 75-2.00. This certification is based on an evaluation of education, training, experience and either test results or capability demonstration, which is in compliance with the requirements of American National Standard Institute, ANSI / ASME N45.2.6 (1978) and NQA-1.

APPROVAL OF CERTIFICATION FOR GE NUCLEAR ENERGY (GE) FUEL INSPECTOR

The attached GE certification of Charles R. Ogle (SSN 490-30-9023) as a Level III Mechanical Fuel Inspector has been evaluated as required by Appendix A of IEP 201, Revision 2, 'Qualification and Certification of Nuclear Quality Control Inspectors'.

Mr. Ogle satisfies the education and experience requirements of ANSI N45.2.6-1978 paragraph 3.5.3, and his visual test is current and meets the criteria required for Browns Ferry fuel receipt inspectors. He has been a GE Fuel Inspector for approximately thirteen years.

Therefore, Mr. Ogle is approved to perform GE fuel receipt inspection services for Browns Ferry Unit 3 Reload 8 / Cycle 9. These services include evaluating site inspection procedures, training site inspection personnel, assisting in handling and inspection activities, performing rework, and preparing new fuel for offsite shipment, as needed.

If you have questions, please call me at 751-4853.

Subject: Fuel Receiving Inspection at Chinshan-1,-2

I just returned from a visit to TAIPOWER and am happy to report that both the customer's personnel and the local GETSCO staff had great things to say regarding the CS-1/R12 and CS-2/R11 receiving inspection activities performed by Charlie Ogle. Specifically they seemed very impressed by the professional manner in which Mr. Ogle trained and assisted the TAIPOWER inspectors at the site.

Listening to TAIPOWER's and GETSCO's statements regarding the receiving inspection, it became obvious to me that Charlie has the right combination of technical expertise and social graces to be a world class Customer Service representative for GE. I know that having Charlie in Taiwan for five (5) weeks was an imposition both on him and the rest of your staff. However, the positive reports I received from TAIPOWER regarding our involvement in this inspections indicate to me that it was time well spent.

As you know, we'll need to perform similar inspections next year (probably October/November time frame) -- Charlie's performance will be a hard act to follow!! If at all possible, for the sake of continuity and the good relations already developed, I would like to see Charlie be the GE representative for the 1993 inspection activity at Chinshan.

Charlie is to be commended for a job well done.

Best regards and many thanks for your continued support, Ron --

Ron

FUEL INSPECTION ACTIVITIES

Fuel arrives for outage

It's finally here.

Fuel shipments for the plant's first refueling outage — set to begin Sept. 8 and end around Thanksgiving — started arriving June 12, according to Dick Drouillard, nuclear assistant shift supervisor.

"The last of the eight shipments is scheduled to arrive June 30," he said. "It's all coming in by truck from General Electric's manufacturing facility in Wilmington, N.C."

Drouillard said a total of 320 fuel bundles are being delivered. Each will be inspected and then stored in the spent fuel pool of the Reactor Building until the outage.

Ed Juarez, senior planner, Outage Management, said the outage work scope is "well in hand.

"As of June 15 we had identified about 2,700 activities to be completed," he said. "That includes all of the plant maintenance and testing work in addition to refueling activities."

continued on page 2

Taking a close look at newly arrived fuel bundles are, from left, Kurt Sessions, plant inspector, Production Assurance, General Electric consultant Charles Ogle, and Terry Westover, associate engineer, Nuclear Fuel.

Fermi 2 prepares for refueling

Inspecting a bundle of fuel rods recently delivered to Fermi 2 are Kurt Sessions, plant inspector, Nuclear Quality Assurance (left), Charles Ogle, consultant, General Electric Co., and Terry Westover, associate engineer, Nuclear Fuel. General Electric has shipped seven loads of fuel from its Wilmington, N.C., plant to Fermi 1 since June 13. The final shipment is expected Friday. Following each delivery, workers lift the rods from the first floor of the reactor building to the fifth floor, inspect them and store them in the spent-fuel pool until the September refueling outage. The inspection process takes two days. The 320 bundles of fuel — which should last 54 months — represent an investment of $85 million. Engineers will replace one-third of the reactor's fuel every 18 months.

Employees Kurt Sessions and Terry Westover inspect fuel rods with General Electric Co. consultant Charles Ogle

A Communication For Your Immediate Attention

Update!

GE Wilmington

GE11 Pathfinder Finds Way to Germany

"This shows, once again, that NF&CM can deliver a quality product on time through teamwork and by paying attention to detail. NF&CM employees should be extremely proud of this achievement in a new market arena." Paul Sick

Eight GE11 Pathfinder Fuel Assemblies were received last week at the Kruemmel site of GE's German customer Hamburgische Electricitaets-Werke. Paul Sick, Manager of Quality Assurance, accompanied Charlie Ogle, Inspector Product Verification, Customer Service Representative to their plant to perform the bundle receiving inspection. Paul said "It was a great pleasure for me to see our hardware (bundles, channels, and channel fasteners) during the inspection. The inspection and final site certification all came together flawlessly. Based on this performance, the customer's regulatory representative (TUV) asked us if they could work with GE the next time we deliver fuel to reduce the site inspection. This shows, once again, that NF&CM can deliver a quality product on time through teamwork and by paying attention to detail. All NF&CM employees should be extremely proud of this achievement in a new market arena."

Charlie Ogle says that the eight GE11 LUA bundle assemblies were "of exceptional quality and appearance. The customer was very impressed with GE Wilmington's high quality workmanship." Additionally, the fuel and paperwork were all accepted and all that remains, in the words of Pathfinder Program Manager Mark Lyons, is to "get 'em in the core."

TO WHOM IT MAY CONCERN:

This is to certify that Charles R. Ogle, SS# 490-30-9023 has been examined and found qualified to perform the functions of a Level III New Fuel Receipt Inspector in accordance with NRC Regulatory Guide 1.58 and ANSI N45.2.6 as described and accepted by the NRC in Global Nuclear Fuel's Quality Assurance Program, NEDO-11209.

The qualifications and physical characteristics comply with those established in GNF Fuel Examination Services 246-GP-36 "Certification of Site Fuel Inspector-Mechanical".

This certification is based on the following:

I. Education:
High School Diploma 1965
Cape Fear Technical College – 1971

II. Experience:

1. 26-years with GE Nuclear Energy

2. GE Nuclear Services Operations Certificates received in: Field Disassembly/ Reassembly of Irradiated Fuel Bundles and Quality Control Inspection – 1985.

3. Field Quality Control Activities on Irradiated Fuel Bundles – 1985.

   3.1 Bundle UTP Removal/Replacement – 1985.
   3.2 Individual rod handling Fuel and Removal and Re-installation of channels – 1985.

III. Physical Characteristics

1. Meets visual requirements as listed on the Visual Test Report ANSI N45.2.6 and the following special requirements:

   1.1 Corrected vision shall meet the minimum acceptance levels for two eyes.

This certification shall be effective for three years from November 2, 2000, after which time re-certification must be performed. Physical characteristics must be evaluated and documented at one-year intervals.

D. O. Sheppard, Team Leader
Fuel Examination Services

DEPARTMENT OF THE NAVY
OFFICE OF THE CHIEF OF NAVAL OPERATIONS
2000 NAVY PENTAGON
WASHINGTON, D.C. 20350-2000

IN REPLY REFER TO
1650
Ser N09B33/K0A1CAR-87
12 DECEMBER 2000

From: Chief of Naval Operations (N09B33)
To: CHARLES OGLE
Ref: Serial No. (or SSN): 3402662

Subj: AWARDING OF THE COMBAT ACTION RIBBON

Ref: (a) SECNAVINST 1650.1F
(b) Public Law 106-65, DAA FY2000

Encl: (1) Combat Action Ribbon

1. In accordance with references (a) and (b), the Chief of Naval Operations takes pleasure in forwarding enclosure (1) in recognition of your participation in ground or surface combat. Be advised that there is no medal associated with this ribbon, which is the sole device for recognition.

2. We regret any delay in responding to your request. Some requests take much longer to process due to the research my staff must undertake to ascertain whether a request qualifies for the CAR.

3. Precedence of ribbon and how to wear: after the Navy Achievement Medal, before unit awards. Blue end faces to right of wearer.

4. Some applicants have sent us original documents. I would like to caution anyone writing to government offices not to submit original documents unless specifically requested. Most government offices do not return the documents they receive.

5. If you have questions about any other medals, awards, or devices, you should contact the Bureau of Naval Personnel, Retired Records Branch, 9700 Page Ave., 5th Floor, St. Louis, MO 63132.

6. This letter will suffice as your official authorization document indicating entitlement; attach it to your Pers-553 or DD-214 to update your personal file.

B. A. WILSON
By direction

"AMBASSADOR FOR PEACE"

Official Proclamation

Charles Ogle

It is a great honor and pleasure to express the everlasting gratitude of the Republic of Korea and our people for the service you and your countrymen have performed in restoring and preserving our freedom and democracy.

We cherish in our hearts the memory of your boundless sacrifices in helping us reestablish our Free Nation.

In grateful recognition of your dedicated contributions, it is our privilege to proclaim you an "AMBASSADOR FOR PEACE" with every good wish of people of the Republic of Korea. Let each of us reaffirm our mutual respect and friendship that they may endure for generations to come.

Minister
Patriots and Veterans Affairs
Republic of Korea

Certificate of Meritorious Service

THE GRAND LODGE
OF NORTH CAROLINA

IS PRIVILEGED TO HONOR OUR WORTHY BROTHER

Charles Richard Ogle

for his self-sacrifice, dedication and bravery in loyal service to our country. Through his service he has aided in preserving the great Masonic principles of Friendship, Morality, and Brotherly Love

Presented this 14 *day of* October
A.D. 2014 *A.L.* 60

Dalton W. May
GRAND MASTER OF MASONS OF NORTH CAROLINA

The following information is from John Baldwin, we both worked at General Electric Company ,before retirement. John said that he is writing a book, about his father and others that served in WWII.
I know and respect John, his positive demeanor is impeccable. It is an honor to include his opinion of me in my Army, Navy and GE History

Charlie Ogle

There comes a time in our lives where we meet, know, work with, or live with a special person who has performed beyond the norm of society. Such a person that I knew and worked with was retired Chief Petty Officer Charlie Ogle who at the age of 13 joined the US Army. His stories about his life and career are incredible and for all of us who have been a part of Charlie's life we will never see this again.

Charlie Ogle and I were hired by GE on the same day in 1969 and what a day that was for us. Charlie earlier retired from the Navy as a Chief Petty Officer with 20 years' active service then later attended Cape Fear Technical College to study drafting and design and later graduated in 1971 with an associate's degree in applied science. He managed to work in the drafting room on second shift and since I started on second shift we would both see each other quite often. I would often talk to Charlie about his experience in the Navy and he told me he had a lot of stories and he surely did!

Our GE careers took a different twist but with a strange fate as our paths crossed at the end of our careers. Charlie was recruited into the Customer Relation/Audit section of the Nuclear Fuel business. He traveled to sites, worked with customers and did internal audits for about 15 years. My career path was in Production Control and Production Planning both in the nuclear business and Aircraft Engines. In 1991 I was working in aircraft engines and I had an opportunity to return to Nuclear. I applied for a position in the Customer Relation/Audit section and I was accepted. As luck would have it I returned to the same Quality section that Charlie had earlier worked

prior to his retirement. I followed up on his audit work and knew his work was very good if not exceptional. It felt good to be in Charlie's path as he was a respected colleague and was known in the business as a great auditor.

Before I returned to Nuclear, a young lady who was a recent high school graduate came to work with our group as a temporary employee in Aircraft. Her name was Elizabeth Ogle her father was Charlie Ogle who I worked with and knew for many years. Elizabeth was lovely, bright, and smart, had a good work ethic and did a great job as everyone in the office loved her. What an attitude that was always helpful with our team. Eventually she became a full time GE employee and when I retired she became the Administrative Assistant for Global Nuclear Fuel's CEO which was a wonderful move for her and her family. Charlie was proud of his daughter for all her hard work and Elizabeth remains in that position today.

Charlie was born in Big Piney Missouri 1932 in the days of the great depression. His Mother passed away when Charlie was a young child and he was raised by his Aunt and sometimes father who had earlier divorced his Mother. He had no stable home life and moved from town to town and according to Charlie left to his devices as a youngster. His two older brothers were in the military during WWII and from them he got the idea that the military would be a good move for him. One afternoon he went downtown to the local post office for a package. At this time Charlie was 13 years old and the year was 1946. He talked to the Army recruiter in the post office and told the recruiter he wanted to join the Army. The recruiter gave him some papers that he needed his father to sign attesting to the fact that Charlie was 17.

Charlie had his father sign the papers attesting that he was indeed 17. The family was against it but Charlie finally convinced the family that the military was the best thing for him. The recruiter needed the Judge at the courthouse to verify the papers with the judge's approval. Charlie and the recruiter went to see the elder judge and the judge signed the papers telling the recruiter and Charlie that it was good to see "John" again. The judge thought Charlie was John who was his older brother and all was well with the recruitment papers. They were properly signed, witnessed and documented with the recruiter.

Charlie was on the way to the Army as a 13 year old. He went to Springfield Missouri where he took his entrance exam and passed the test. This was quite remarkable as he was in the 5th grade the last year he attended school. In those days in Missouri if you traveled from town to town in the school year, a student would be held back and not promoted to the next grade. He was promised by his school that he would be in the 8th grade but that never happened. Charlie was convinced that any future school work was not for him!

Charlie arrived in Europe after training in Aberdeen Maryland and he went to France and Germany for airborne training. After this training Charlie was now 14 and was promoted to Corporal. In November of 1946 his special unit, the 508 parachute regiment was disbanded and he returned to New Jersey where he was reassigned to Fort Bragg and joined the 325th a glider infantry regiment where he was once again promoted. Charlie was assigned to the 82nd Airborne, 504 regiment. At the tender age of 14 Charlie was now a Sergeant. He commented to me that he was a "lean mean fighting machine meaner than hell" and the Army was easy compared to his life on the farm. Life on the farm was tough as Missouri was backward and he did not have a stable home,

opportunities and family conditions in the state were terrible. The military was a blessing for him as he received his education, meals, lodging and clothing and had a purpose in life. The Army was now his home.

In 1949 Charlie left the Army as his recruitment was over and went back home to Missouri for a visit. He thought about returning to the Army but this time he tried to join the Navy and was accepted into the fleet. His goal was to have a change of scenery and learn skills that would help him later in his life. As Charlie told me the only skills he was learning in the Army was how to kill people and he wanted more from life. In 1949 he completed Navy Boot Camp in San Diego, California and stayed in San Diego until 1951 where he was assigned to the USS Fulton serving on this ship until 1953. Charlie's career in the navy after 1953 was with the following ships. USS Prairie, USS Stribling, USS Fulton, USS Tweedy, USS George Clyman, USS Delta, USS Piedmont, USS Whetstone, and USS Pickaway.

Charlie as a seaman visited Spain, Suez Canal, Gulf of Aden, Persian Gulf, Italy, France, Japan, South Korea, Newfoundland, Jamaica, Havana, Haiti, St. Johns, St. Croix, Puerto Rico and countless ports in the United States. In 1953 he was stationed on the USS Stribling and USS Prairie where these ships participated in the Korean War Operations in the Sea of Japan, Yellow Sea and the west coast of Korea. This duty was completed in 1954 when he returned to Japan.

Charlie was promoted to Quartermaster 2nd class in 1955 and was assigned to the US Naval Receiving Station San Francisco and later assigned to San Diego. In 1957 Charlie went to Whiting Field, Milton Florida and was married to Rosa Maria Mata the love of his life. From

this marriage there were three wonderful children one of which it was my pleasure to work with for many years. In 1958 Charlie left Florida and went to Norfolk where he served on the destroyer USS Wallace Lind and while on the ship Charlie received his high school GED.

1960 Charlie attended a leadership school and in that year on board the USS Tweedy Charlie was promoted to Chief Petty Officer. That accomplishment was a serious big deal in the navy as most veterans know that ships at sea are run by the Chiefs. Next to the Captain the Chiefs are the most respected men in the Navy and it takes a lot of hard work and effort to obtain that rank. Charlie was very proud of this accomplishment!

Following the tour on the USS Tweedy in 1962 Charlie went to leadership school and in 1963 he was transferred to the Wilmington Naval Training Center where he was the leading Chief Petty Officer Signal Man for the unit. At this location he received his North Carolina High School Certificate in 1964. Charlie transferred to the US Navy Fleet Reserve in 1966 and officially retired in 1976. A career that can only be defined as exemplary.

I knew Charlie well at work and everyone spoke about the Chief with a certain reverence as he was a respected veteran and an outstanding employee. He was neat and sharp in his dress and always wore shoes that were shined to a mirror finish. The swagger and walk was all navy and when he was in the audit world he was serious business. There was never a moment at GE where Charlie did not represent the company in its best interest. He worked very hard to give all employees in his presence his best effort and his honesty and diligence was his trademark. During those years I heard so much about Charlie in the

Army at 13 and his career. Most of us at work did not believe all the stories but as the years moved forward I learned that these stories were indeed true. I thought that men who joined the service at 17 were special but 13 was not even conceivable. My thoughts were how a young kid at 13 can have the nerve, stamina and strength for such a task. I know I did not possess those skills at 13 and how Charlie did this is remarkable.

I have written stories and interviewed men and women I knew who were in WWII and most were young 17 or 18 but not 13. I tried to place myself at Charlie's age of 13 and where and what I was doing. At 13 years of age I was in the eighth grade and the only thing I cared about was school, sports, working at my dad's store and fishing and hunting. I knew of no one at that age at my school that had enough maturity to go into the Army much less jump out of airplanes with a heavy back pack and a weapon. Are you kidding me! I have talked about Charlie amongst my veteran buddies and all tell me that Charlie should be honored and placed into the "hall of fame" because there might not be another veteran in the United States that has his pedigree. Charlie told me that when he reached 33 in 1966 he had his 20 years in the service and trying to explain this to navy personnel officers and changing his birth date was not easy. I am sure they looked at his record in the service and asked the question "how did you do this' '?

To write this story is an honor for all the veterans who served overcoming their personal issues. It tells a story about a young boy who had very little family and was raised in the wash of the great depression. I personally cannot place myself in Charlie's shadow as I never knew poverty like Charlie knew and experienced. Charlie had little home life and the way for him to get ahead in life for him was almost impossible to obtain. As Charlie told me about the only thing he could do was to get

married at 14 and live a scrabbled life as a poor farmer. The military was his way to live a normal life and Charlie took the road to normalcy via the Army and the Navy. His travels and stories are legendary and his impact on his family is remarkable. A wonderful employee, father and mentor for all that worked with him. What a story for the ages and for this achievement in his life Charlie Ogle is my hero.

NOTE: it's people like John Baldwin that made working at General Electric pleasurable. John was an asset to the company and employees.

Chief Ogle 2020
